Technical Skills and Interests

LANGUAGES	C#, C++ | *Familiar With: Javascript, Python*
FRAMEWORKS	ASP .NET Core (MVC, Microservices, SignalR, AutoFac, Razor) | *Angular*
DATABASES	MS SQL Server, Amazon Redshift
DEV TOOLS	Git, Seq, S3, EC2, Lambda, SQS | *Familiar With: Jenkins*

Professional Experience

•Veradigm *May 2024 - Present*

Software Engineer Dhaka, Bangladesh

- **.NET Core (MVC, Mircoservice), SQL Server, Redshift, Angular, S3, EC2, Lambda, SQS, Seq, Python**
- Working extensively on US Healthcare insurance claim submission systems with a focus on designing, developing and maintaining scalable C#/NET applications with clean, efficient and reliable code.
- Debugging, testing, and integrating APIs/services to ensure high-performance and stable solutions.
- Partnering with UI/UX, DevOps, and product teams to deliver user-focused, maintainable software aligned with business goals.
- Contributing to architectural decisions and supported issue resolution across QA and customer support.
- Actively participating in Agile/Scrum processes, leveraging Jira/Azure DevOps, CI/CD, and TDD to ensure timely, high-quality releases.

•Grameen Bank *Jun 2023 - Mar 2024*

Software Programmer Dhaka, Bangladesh

- **C#, .NET Core (MVC, Web API, Razor), SQL Server, CSS, Bootstrap, JQuery**
- An integral part of the first in-house IT Department of the organisation, responsible for rebuilding the entire transactional recording system.

Projects

•BIIS PlusPlus *Aug 29, 2022*

Software Engineering Project for CSE 408 using MVC Architecture

- Tools & technologies used: **PostgreSQL, Express, React and Node**
- BIIS PlusPlus is the modern version of BUET Institutional Information System, BIIS, with better and responsive UI design and strictly follows the MVC Architecture.
- Contributions were mainly on the Frontend side. Responsible for making dynamic React UI components that had multiple views upon the passing of different arguments. Also responsible for creating some Controllers for the Backend.

•The Bazaar *Dec 12, 2020*

Database Management System Project for CSE 216

- Tools & technologies used: **Oracle SQL Developer, Django, jQuery, Bootstrap**
- The Bazaar is an online grocery store where one can buy any daily necessities.

•Selenium Tests *Dec 12, 2020*

UI Testing of a Django Project using Selenium and JUnit

- Tools & technologies used: **Selenium, JUnit, Django**
- Automation of UI forms tested via Selenium and JUnit. See the video demonstration.
